

Traffic Regulations

These traffic regulations are designed to facilitate parents in dropping-off and picking up children at NODDY Playgroup. They should help to strengthen safety, enhance smooth traffic flow and reduce time for this activity.

We urge parents to follow these regulations strictly and to respect & care for other parents when sharing the road and parking.

- 1) When approaching the junction to turn in or out from the sub soi, please look at the fish-eye mirror, on the electric post at the far corner of the sub soi, to see whether any other vehicles are approaching the intersection on the opposite side. You should leave enough space for other vehicles to make a safe turn. Please let the vehicles approaching from the sub soi go first (to avoid clogging of traffic in the sub soi).
- 2) Once you are in the sub soi, please drive slowly. There are also children who walk to & from school.
- 3) If it is necessary for you to visit the school for a period of time, please park your car at one of the designated parking areas. Please do not leave your car un-attended in the areas where the traffic should flow, even for a short period of time.
- 4) Once you turn in to the school, please queue up to the left lane for a quick drop-off. School will provide staff to pick your child from your vehicle at the pick up bay. Please keep the right hand lane clear for traffic passing.
- 5) At the drop-off queue, once the vehicle in front of you moves forward, you should also move forward. This is to ease the traffic behind you.
- 6) Once you have dropped off your child, you may join the right hand lane to depart from the school.
- 7) Please do not park your vehicle in the sub soi between the intersection and the school.
- 8) Please be patient and polite to others.
